

Rowan Engineering AIAA club: To take flight at DBF Contest Fly-off

The Henry M. Rowan College of Engineering's AIAA Club will put its designed and built plane to the test when it takes flight at AIAA's 2017-2018 Design Build Fly (DBF) Contest. On April 19-22 — in Wichita, KS — The Rowan Engineering team will compete against 90 other university student teams that have designed, fabricated, and demonstrated flight capabilities.

After 3 years of AIAA club and Jr/Sr Engineering Clinic working on the Design, Build, Fly project — the team is flight ready for competition. They passed two rounds of a judged proposal and design report, which includes proof of a flying plane. For more information about the contest:
