

DEPARTMENT OF BIOMEDICAL ENGINEERING
Engineering Hall
201 Mullica Hill Road
Glassboro, NJ 08028

Rowan University is the third-fastest growing public research university in the US. The **Department of Biomedical Engineering** is part of both the Henry M. Rowan College of Engineering and the newly established Rowan-Virtua School of Translational Biomedical Engineering and Sciences. The School of Translational Biomedical Engineering & Sciences is a new academic health partnership that will further distinguish Rowan and Virtua Health as leaders in patient care, innovation, research, and clinical discovery. Consisting of multiple interdisciplinary institutes alongside academic departments in Biomedical Engineering and life sciences, the School is uniquely positioned to integrate engineering, life sciences, and medicine to be a national leader in health care discovery and innovation, leveraging the synergy of research and patient care. Rowan is also home to the South Jersey Technology Park and a business incubator, which fosters the translation of applied research into commercial products and processes.

Biomedical Engineering: Open Rank Tenured/Tenure-Track Faculty Positions

The **Department of Biomedical Engineering** at Rowan University invites applicants for tenure-track or tenured position(s) at the **Assistant, Associate, or Full Professor** level. We seek outstanding candidates who have a Ph.D. in biomedical engineering, or a closely related discipline. Successful candidates are expected to develop and maintain an active, highly visible, externally-funded research program with outstanding scholarship and to demonstrate excellence in teaching and mentoring both undergraduate and graduate students. The areas of expertise are open, encompassing all research areas of the biomedical engineering field. Senior-level candidates with exceptional achievements and demonstrated impact will have the opportunity to be considered for the Henry M. Rowan College of Engineering Foundation Professorship.

The **Department of Biomedical Engineering**, as part of both the Henry M. Rowan College of Engineering and the newly established Rowan-Virtua School of Translational Biomedical Engineering and Sciences, encourages transformative, interdisciplinary, and translational research. This position may involve a primary or joint appointment in either of these entities to align with the applicant's research program. We seek individuals who value collaborative and interdisciplinary work.

Review of applications will begin immediately for a start date of **September 1, 2023**.
