

ORAL PRESENTATION GUIDELINES

Each team will present on an assigned topic. All members of the team must help in preparing slides for the presentation.

The presentation duration for each team is 12 minutes. 3 minutes for questions. Team can decide if all members or one or some will present.

INTEGRATED SOLID WASTE MANAGEMENT FOR A SELECT COUNTRY

Indicate the geographical location, population, socio economic and racial demographics of your country.

What does their solid waste consist of? How much is produced?

How is the solid waste managed?

What laws are enforced? What type of taxes are enforced?

What practices for solid waste management impact the population? Example: Locating the landfill in poor communities or marginalizing underrepresented groups etc.

Please address social, gender, racial biases/discrimination issues. (Example-Who picks the trash and how does society treat the workers?)

Tips for presentation evaluation

Presentation Component	Ask yourself...	Grade (points max, each)
Oral Communication	Did they clearly explain their objectives? Could you hear them? Did they speak at a good rate?	15
Visual Communication	Did the visuals help you to better understand the design? Were words and equations legible?	15
Professionalism	Did they present in a professional manner? How did they respond to questions?	15
Technical Content	Does the team have an adequate knowledge of their assigned research topic?	15
Team Dynamics	Did the team portray that they respected each other and allowed all to have a voice in the presentation?	15
Overall	Was the presentation well organized? Did they introduce and summarize?	25
