TIPS FOR ACADEMIC SUCCESS

- ◆ Meet with your advisor regularly and work with them to achieve your academic goals
- ◆ Familiarize yourself with your degree requirements
- ◆ Don't ignore your Rowan student email - all official university notices are sent via Rowan email
- ◆ Reach out for help early when challenges arise
- ◆ Understand university policies

Invest yourself in the educational process and take responsibility of your own decisions and actions.

Ensuring Academic Success in Engineering (EASE)

At-a-glance advising resources for students in the Henry M. Rowan College of Engineering

The faculty and staff of the Henry M. Rowan College of Engineering are committed to helping you reach your goals and share responsibility for your success. The resources described in this brochure are designed to help ease your academic journey. You are encouraged to utilize them to the fullest.

Henry M. Rowan College of Engineering

Advising Resources

The Henry M. Rowan College of Engineering recognizes the need for the consistency and expertise of professional advisors in addition to the vital connection between students and faculty members in the discipline-specific arenas. The college supports a dual advising system in which advisement is comprised of both **faculty mentoring** and **professional advising**.

Freshman

First year students are assigned to a both professional advisor and discipline-specific faculty. The professional advisor provides guidance regarding university policies, procedures, curriculum, course sequencing, campus resources and collaborates closely with faculty mentors, departments and the college. Faculty provide expertise and major-specific information and support.

Program/Freshman Advisor

Ms. Maria Perez-Colón
Engineering Hall 131
perezcolon@rowan.edu

For advising appointments, please schedule via Rowan Success Network (RSN) accessed through Banner: www.rowan.edu/selfservice.

Sophomore to Senior Year

From sophomore to senior year, students rely on the expertise of faculty to provide guidance on discipline-specific coursework. Faculty provide information on career planning, preparation for graduate study and employment, internships and work experience in the field.

Engineering Resources

- **Engineering webpage:** <https://academics.rowan.edu/engineering/>
- **EASE Advising Wiki** - a quick glance to information on majors, minors, registration, upcoming events, etc. www.advisingrowanengineering.pbworks.com
- **Departmental webpages** - get to know your major—research, faculty, dept. announcements, etc. (accessed through engineering webpage)
- **Engineering Outreach**— info on jobs, internships, career fairs, etc.—<https://academics.rowan.edu/engineering/outreach>

University Online Resources/

- **Banner Self-Service** - accesses secure services such as registration, personal information, transcripts, etc. www.rowan.edu/selfservice.
- **Graduation Requirements and Advising Database (GRAD)** - online tool for tracking progress, GPA calculator, etc. Accessed through Banner Self-Service, under Student Records.
- **Rowan Success Network (RSN)** - used to network with professors, advising resources, etc. , schedule tutoring, meetings with professors, advisors, and other campus support. System flags students about academic performance. RSN is accessed through the Banner Self-Service welcome page (see above).

Campus Resources

- **Registrar** — (Savitz Hall 1st fl) -provides services related to registration, academic records including obtaining transcripts, transfer credit evaluation, etc.
- **Academic Success Center** (Savitz Hall 304) provides various services such as:
 - **Tutoring Center** - available **free** of charge. Schedule via RSN (Rowan Success Network).
 - **Disability Resources** - provides accommodations and assistance to students with documented disabilities.
 - **Testing Services** - provides testing accommodations to students registered with the Office of Disability Resources.
