

**Rowan University will continue to update these guidelines as the State of New Jersey and the CDC offer new guidance.** As always, Rowan University will follow the safety mandates in effect at the time of an event. The guidance below does not apply to Orientation and ASCEND programs, as they will follow the protocol for enrolled students.

### **ROWAN PROGRAMS & CAMPS:**

#### **CDC & State Guidelines**

- The Program/Camp Administrator has the ultimate responsibility to follow all current CDC and State guidelines pertaining to scheduled activities of the camp or program. We anticipate updates from both the CDC and State of New Jersey as camp season approaches and will make these available to you.
  - The CDC guidance for operating youth camps [can be found here](#).
  - The New Jersey State 2021 guidelines for youth summer campus [can be found here](#).

#### **Vaccination Mandate**

- Individuals, over the age at which you can receive vaccinations, are required to provide proof of vaccination status.
  - The Program/Camp Administrator is responsible to determine how to implement vaccine exemptions in accordance with applicable law.
    - [Click here](#) to New Jersey Department of Health Guidance for Requesting a Medical Exemption from Mandatory Immunization
  - For individuals exempt for the vaccination, the Program/Camp Administrator will need to confirm a negative test for the individual to participate.

#### **Participation Waiver**

- Staff members, participants and/or guardians of participants are required to complete a Rowan University COVID-19 Participation Waiver prior to the first day of the program/camp.
  - University Events will provide the waiver and the Program/Camp Administrator is responsible to distribute, collect and retain signed waivers.

#### **Health Assessment**

- A health assessment is required to be completed by every staff member and participant, every day they participate on campus.
  - The Program/Camp Administrator is responsible to ensure all staff and participants complete the healthy assessment and keep records for the duration and up to 14 days after the program's completion.

#### **Testing Protocol**

- For non-residential programs and camps, a negative COVID-19 test is required for those vaccination exempt staff and participants.
  - The Program/Camp Administrator is responsible to request and keep the results of the negative test.
- For residential programs and camps, a negative test taken no more than 72 hours prior to check-in will be required for all unvaccinated staff and participants.
  - The Program/Camp Administrator must receive the results of participants' tests. The Program/Camp Administrator is responsible to review before allowing participants to move into university housing.

### **COVID-19 Positive Case Response**

- For residential programs and camps, if a positive COVID-19 case is identified, the individual will immediately discontinue all activities and leave campus.
  - If the individual is a minor, the guardian will be contacted for immediate pick up. In advance, a space will be identified for the minor to wait until transportation arrives.
- The Program/Camp Administrator must notify Rowan Wellness of the positive COVID-19 case for contact tracing needs. The Program/Camp Administrator can continue all previously scheduled activities, unless otherwise notified by the Director of the Wellness Center.

### **MARKETING MATERIALS TO NOTE COVID-19 POLICY**

- Non-Rowan affiliates must complete a health assessment form each day they are on campus. An example health assessment form [can be found here](#).

### **REQUESTING TO HOST A PROGRAM OR EVENT:**

- The Program Administrator is required to provide their COVID-19 protocol when submitting the program or camp for review by the Events Committee.
- Questions or feedback can be directed to [universityevents@rowan.edu](mailto:universityevents@rowan.edu).
